DETAILED ACTION

Oath/Declaration

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

The declaration qualifies compliance by only reciting section 37 CFR 1.56(a) in the declaration, but 37 CFR 1.63 doesn't qualify compliance to only section 37 CFR 1.56(a), but recites compliance in accordance with 37 CFR 1.56.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11-15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bormke (US 4395009).

Bormke (figures 2, 6) shows a mounting plate 14 defining first and second openings 51 therethrough and an arcuate cable tie 52 residing in the openings 51. The cable tie is inherently capable of being molded and is shown in a free arcuate configuration in figure 12 and the molding process provides no limitation on the final product. The curvature is considered to define an undulation and is in underlying relation with the mounting plate with the ends

extending through the apertures. As to claims 13-15, these are directed only to a method of insertion of the strap and since the strap is flexible it is fully capable of being manipulated to be inserted in such a manner. Claims 12-15 define no positive structure beyond that shown by Bornke.

Response to Arguments

Applicant's arguments with respect to claims 13-15 have been considered but are moot in view of the new ground(s) of rejection.

As to the declaration, Rule 63 does not qualify compliance with regard to a section of Rule 56, so applicant's remarks are unpersuasive.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
